**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

We have twisted dual DSL providing us with 13 Mbps service from Sonic that is not available from AT&T. AT&T's top service for our location is only 6 Mbps. At 13 Mbps we can use Netscape, Hulu, and Amazon, our son can use our library's services, and we can connect to his school's homework site. At 6 Mbps, none of these work at an acceptable level.

Theoretically we could have a higher rate of service from our cable provider; however, our cable wire is broken and we do not have the \$2000 multiple electricians have quoted us to rerun the wire through the walls of our complex. Comcast Cable company refuses to rerun it themselves.

So please do not assume AT&T and Cable provide all the solutions. Without Sonic, we would not be effectively connected.
